

Martinique Table Base Assembly Instructions

1. Position the center ring so the weep holes face the ground. Attach the four legs with nuts and bolts as shown. Keep the bolts loose.

2. Position base over the center of the table top and screw the base to the bottom of the table. Use cardboard to protect the table top surface.

3. Finish tightening leg bolts to the center ring with a wrench.

4. Screw in the plastic glides by hand.
