Standard Features

QuietQube® Series Remote System consists of a remote condensing unit, interconnecting refrigerant lines, ice machine head section, ice deflector, and ice storage unit— whether storage bin, countertop or floor-standing dispenser. All ordered separately. QuietQube ice machine with RCU condensing unit is designed as a Manitowoc system and not for use with any other ice machine or remote condenser brand.

- Up to 880 lbs. (399 kgs) daily ice production.
- Only 22" (55.88 cm) wide.
- Perfect for beverage applications, dispensing and cold therapy.
- Evaporator is designed for maximum quality and operating life.
- 90% ice to water ratio and longer pieces makes tubular nugget ideal for dispensing without congealing.
- Quiet operation eliminates most noise from the refrigeration system. Promotes a relaxing atmosphere.
- Ice machine is lighter in weight and 115 volt simplifies installation.
- Stainless steel exterior has a clean and modern look to enhance the display in any self-serve environment.
